[www.smoothtransitioninc.com](http://www.smoothtransitioninc.com)**

**or**

**951-263-9392**

**Class size limited, Please sign up today!!**

**Casa Blanca Library Computer Lab**

**2985 Madison St.—Riverside, CA**

Students will learn website design basics, including HTML coding, CSS formatting, images, and how to evaluate host providers. Students will publish their sites to a web host of their choice. Basic hand coding will be taught as well as design mode “helper” software. Emphasis will be given to help students understand the code for probability regardless of which editor will be used at home.

**\*Students will find it useful to have a USB flash drive to transfer files from class to home.**
